M-PPF[®]
Metamark Paint Protection Films

Performance you can trust

Best-in-Class Paint Protection Film and Templating Solution.

We protect what we value. As the automotive industry continues to evolve, developing higher value vehicles, paint protection films have become the perfect partner.

Metamark Paint Protection Film technology goes beyond the capabilities of OEM paint finish, to give far greater surface protection. M-PPF® protects, enhances, and gives assurance. It provides a second skin to the vehicle with a near invisible finish.

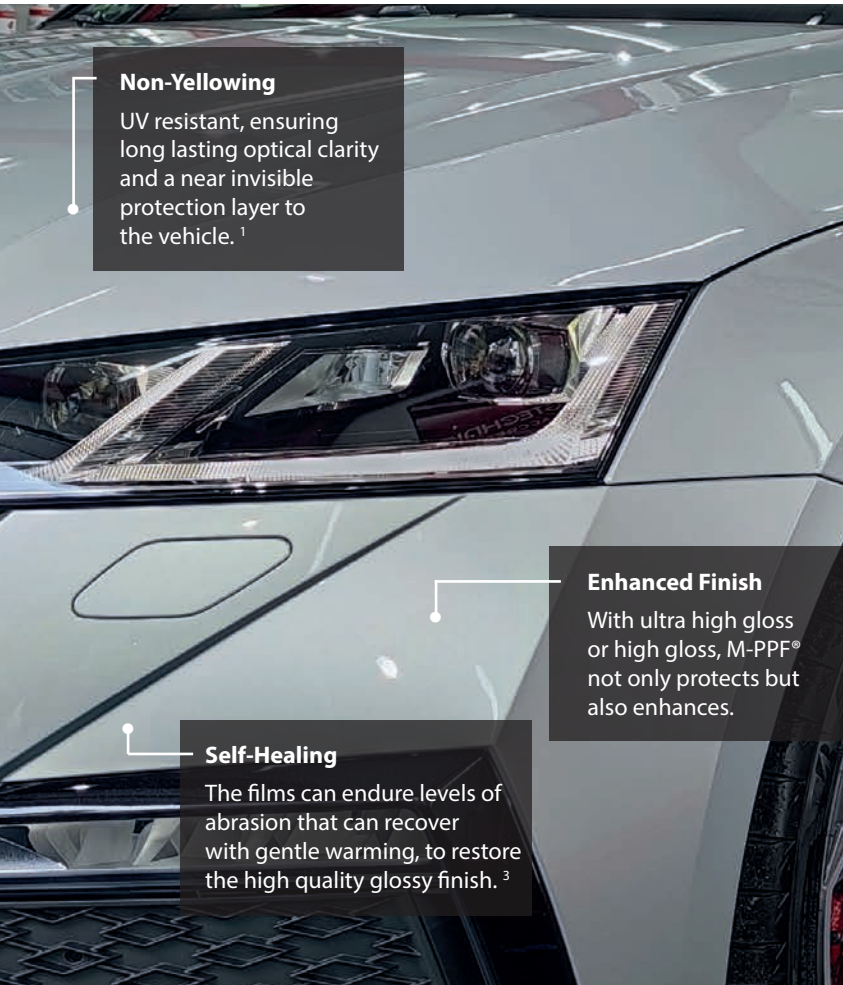

Providing the perfect partner to these films, MetaCut™ Automotive Template Software has been developed exclusively for Metamark Automotive Films.

A bespoke solution, MetaCut™ provides a comprehensive database of high quality, editable, vehicle templates, constantly updated and featuring the latest models. Find out more by visiting www.metamark.co.uk/metacut.

At Metamark our expertise is in class-leading pressure sensitive films, and in automotive films for fleet, wrap and protection. Our products have come to define best in class. Metamark products lead the market in terms of performance, handling, and assurance.

Metamark. Trust and Performance.

Excellence Through Innovation

Non-Yellowing

UV resistant, ensuring long lasting optical clarity and a near invisible protection layer to the vehicle. ¹

Self-Healing

The films can endure levels of abrasion that can recover with gentle warming, to restore the high quality glossy finish. ³

Enhanced Finish

With ultra high gloss or high gloss, M-PPF® not only protects but also enhances.

Hydrophobic

Water is repelled at a far greater rate than is achieved on OEM paintwork. ²

Carbon Fibre Effect

M-PPF® C has a highly realistic finish for exterior or interior customisation.

Advanced Engineered TPU Films

Metamark TPU film technology ensures outstanding properties for paint protection. TPU films offer exceptional impact resistance, conformability, and optical clarity.

M-PPF® films are among the finest paint protection films available, with exceptional coating technologies.

These multi-layer films have been engineered to ensure outstanding installation handling, optical clarity and long term durability.

¹ Non-yellowing - M-PPF® RS is zone 1 only, refer to our Durability Guide.

² Hydrophobic - Excludes M-PPF® RS

³ See aftercare guide for more details about self-healing performance.

Cap Sheet

Remove before application. Protects the film during storage (XS and RS).

Top Coating

15 micron top coat ensuring non-yellowing of the film (XS and RS).

TPU Film

Thermoplastic Polyurethane film for impact resistance.

Adhesive

Solvent-based adhesive for ease of wet application and durability.

Release Liner

Synthetic liner protects the film.

M-PPF[®] Paint Protection Films

M-PPF[®] XS

10 yr | Ultra High Gloss

Metamark M-PPF[®] XS offers the ultimate paint protection. The optically clear ultra high gloss film is 165 micron, hydrophobic and has self-healing, non-yellowing, top coat technology. It is covered by our MetaSure 10 year warranty.

M-PPF[®] RS

5 yr | High Gloss

Metamark M-PPF[®] RS offers excellent performance from road debris, stone chips and bird soiling. The 165 micron film has self-healing, non-yellowing, top coat technology. It is covered by our MetaSure 5 year warranty.

M-PPF[®] M

7 yr | Matt Finish

Metamark M-PPF[®] M has a matt finish. It not only protects but transforms the appearance of factory gloss paint. The 125 micron film has self-healing, non-yellowing, top coat technology. It is covered by our MetaSure 7 year warranty.

M-PPF[®] C

10 yr | Carbon Fibre Effect

Metamark M-PPF[®] C is a carbon fibre effect paint protection film for customisation. The 150 micron film is self-healing and hydrophobic. The low lustre gloss finish has a realistic simulated appearance, and MetaSure 10 year warranty.

Features and Benefits

TPU

Advanced TPU Films

Metamark TPU film technology ensures outstanding properties for paint protection. TPU films offer exceptional impact resistance, conformability, and optical clarity. Through excellence in coating technologies, M-PPF® films are some of the finest paint protection films available.

Enhanced Finish

M-PPF® XS benefits from an ultra high gloss finish and M-PPF® RS has a high gloss finish. Each enhances the appearance of the vehicle. Maintain the finish further with a vehicle detailing polish.

Hydrophobic

The hydrophobic properties of M-PPF® XS and M-PPF® C ensure water is repelled at a far greater rate than is achieved on OEM paintwork. Less water, less staining. The water forms beads and runs off like never before².

Non-Yellowing

M-PPF® XS and M-PPF® RS are UV resistant to ensure non-yellowing of the film, ensuring a long lasting optical clarity and near invisible protection layer to the vehicle¹.

Self-Healing Technology

Seeing is believing when it comes to self-healing film technology. The films can endure levels of abrasion that can be recovered by gentle warming, to restore the finish. Self-healing technology comes through the properties of TPU films³.

MetaSure Warranty

Metamark is one of the leading global manufacturers of adhesive-coated film technologies giving total reassurance. Our MetaSure warranty program ensures product compliance with specification⁴.

Product Comparison

| | Film | Finish | Durability ⁵ | Gauge | Self-Healing ³ | Hydrophobic ² | Non-Yellowing ¹ | Cap Sheet |
|---------------------------|------|------------------|-------------------------|---------|---------------------------|--------------------------|----------------------------|-----------|
| Metamark M-PPF® XS | TPU | Ultra High Gloss | 10 Year | 165 mic | ✓ | ✓ | ✓ | ✓ |
| Metamark M-PPF® RS | TPU | High Gloss | 5 Year | 165 mic | ✓ | | ✓ | ✓ |
| Metamark M-PPF® M | TPU | Matt Finish | 7 Year | 125 mic | ✓ | ✓ | ✓ | |
| Metamark M-PPF® C | TPU | Carbon Effect | 10 Year | 150 mic | ✓ | ✓ | | |

TPU is Thermoplastic Polyurethane. 1 Non-yellowing of M-PPF® RS is zone 1 only. 2 Hydrophobic - Excludes M-PPF® RS. 3 See aftercare guide for more details about self-healing performance. 4 Warranty covers manufacturing defects only. 5 Durability based on Zone 1, refer to our Durability Guide for durability in other zones. Longevity of product is determined by wear and tear.
